Sorry for the delay. Have not had access to my email over the last few days. My schedule is pretty open for a call over the next couple of weeks.

**Subject:** Request for conference call w/ San Jacinto RPM to discuss R6 Dive Team work at site

Bill and Brandi,

I just finished attending a site briefing for my director Carl Edlund with the RPM Gary Miller for the Donna Site. Not only does the RPM think we need the dive team to support for the remedial work by setting up some passive samplers around the waste pits, so does Carl!

Gary would like to schedule a call with R6 Dive Team leadership soon to discuss this collaboration. Please advise us of your availability.

Sincerely,

Valmichael Leos
